**Track #1 New Paradigm of the US Pharma/Biotech Industry**

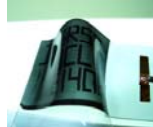

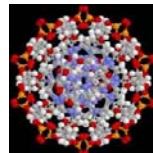

**Track #2 New Jersey IT Trend Talk**

Taiwan's Industrial Technology Research Institute (ITRI) has been collaborating with partners and sourcing technologies from around the world, and adding its innovation, IP business competence, and fast development capabilities to the commercialization process.

You are cordially invited to join a select group of executives and tech leaders for networking and a discussion of innovation, collaboration, and opportunities with ITRI. The forum will be hosted by Dr. Johnsee Lee, President of ITRI, with keynote by Mr. Ed Chao, VP, Alcatel-Lucent.

Our recent collaborative opportunities in many areas, including flexible electronics, WiMAX, and advanced materials, will be presented in the Tech&Biz Exchange session that follows as well as in parallel poster display.

Two tracks on pharma/biotech and IT will have speakers and panelists who are distinguished technical and business leaders from New Jersey and other east coast areas.

1. REDDEX – Flexible Fire Resistant Plastic
2. Nano-Electret Materials
3. Development of Polyimide-Silica Nano Hybrid Substrate for Flexible Active Matrix Displays
4. ITRI Flexible Electronics Pilot Laboratory
5. 3D-IC Stacking Technology
6. MRAM - Low Power and Self-Reference Wiggling Magnetic Random Access Memory
7. Total Solution on Gene Microarray Applications
8. Novel Therapeutic Biologics R&D at ITRI
9. Blood Detection Technology
10. Biomimetic Vessel Culture System
11. Low-Power High-Performance 32-bit PAC DSP Solution
12. MIMO WiMAX System and Service at ITRI
13. TW4G New Mobile Access
14. 3D Fly Mouse
